DETAILED ACTION

Drawings

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the amortization and unmortization, etc., must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lepman, EP 1208495.

Lepman discloses a method of performing financial processing for an account using software for a computer measuring profit based on the factors of net interest

revenue, other revenues, direct expenses, indirect expenses and risk, all set up to take advantage of flexible business rules, e.g. claims 8, 10.

To have provided business rules to calculate known variations of one of the factors, e.g. amortization and unmortization, would have been obvious to one of ordinary skill in the art. Doing such would incorporate known business rule factors integrated with the system of Lepman.

4. Claims 1-18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Curley "Royal Bank unearths profitability solution."

Curley discloses a method of performing financial processing for an account using software for a computer measuring profit based on the factors of net interest revenue, other revenues, direct expenses, indirect expenses and risk, all set up to take advantage of flexible business rules.

To have provided the business rules to calculate known variations of one of the factors, e.g. amortization calculations, would have been obvious to one of ordinary skill in the art. Doing such would incorporate data along with the software disclosed by Curley.

37 CFR § 1.105

5. Applicant and the assignee of the Application are required under 37 CFR § 1.105 to provide the following information that the Examiner has determined is reasonably necessary for the examination of the Application.

This information is required to complete the record so that an analysis under 35 USC § 102/103 may be ascertained. The finding of "Royal Bank unearths profitability solution" by Bob Curley from the Bank Systems and Technology article appears pertinent to the instant invention. Thus, the following information is request:

1. The date of all pertinent public information related and associated to/with the instant Application's financial processing system regarding the account, event and organization attributes, along with the profitability calculations.

The fee and certification requirements of 37 CFR § 1.97 are waived for those documents submitted in reply to this requirement. This waiver extends only to those documents within the scope of this requirement under 37 CFR § 1.105 that are included in the Applicant's first complete communication responding to this requirement. Any supplemental replies subsequent to the first communication responding to this requirement and any information disclosures beyond the scope of this requirement under 37 CFR § 1.105 are subject to the fee and certification requirements of 37 CFR § 1.97.

The Applicant is reminded that the reply to this requirement must be made with candor and good faith under 37 CFR § 1.56. Where the Applicant does not have or cannot readily obtain an item of required information, a statement that the item is unknown or cannot be readily obtained will be accepted as a complete response to the requirement for that item.

A complete response to the enclosed Office Action must include a complete response to this requirement. The time period for reply to this requirement coincides with the time period for reply to the enclosed Office Action, which is three (3) months.

6. Further pertinent references of interest are noted on the attached PTO-892.
